

BUILDINGS ON FIRE: Tactical Risks for the First-Due! (3 Hr Program)

If you're going to command or tactically engage at a structure fire: you better understand the building; there is limited margin for error on today's evolving fireground-Errors and Omissions are Unforgiving. Arriving companies and personnel at today's structure fires must be able to rapidly and accurately identify key elements of a building, process that data based upon a widening field of variables present on today's evolving fireground and implement timely actions that address prioritized actions requiring intervention. This program will present tactical risks and

key considerations for the First-Due Company, Company Officer and Commander affecting and influencing operational risk management, command and tactical safety and tactical protocols based upon occupancy risks, reading the building and adaptive management principles. Integrated into the program are key LODD lessons and learnings for today's demanding fireground.
